Annex B

The above devices are approved for carriage in cargo onboard CLX/ICV aircraft, under the following conditions:

Limitations:

- i. The device must be placed in cargo/container as per the Manufacturer's Ops Manual
- ii. The device must be serviceable as per the Manufacturer's Ops Manual
- iii. Any design revision or introduction of any additional data type sensor must be reported to CLX/ICV
- iv. The CLX/ICV booking office must be notified upon booking of each consignment (i.e. total number of devices)
- v. The lithium battery must conform to IATA DGR, current edition, special packing instruction for excepted Lithium Ion Batteries contained in or packed with Equipment
- vi. Appropriate measures must be taken to prohibit the unintentional activation of the device during any phase of the flight
- vii. This approval is valid until revoked by CLX/ICV at its own discretion
